

A CONFEDERATE DOORKEEPER.

A few days ago we took occasion to say a few words on the spirit of the Democratic party. In that article we attempted to show the influence of the South in Congress. We will find it in the written history of this country, that before the war, when the slave owners reigned with might and power, they controlled to all intents and purposes, both branches of Congress. True, as against the North combined, the South have the fewer members, but there was always a sufficient number of Northern Democrats who did the bidding of the Southern members, to give the South the power they demanded, and which they used with skill if not with prudence. In the contest just closed for a new Doorkeeper of the House of Representatives, the Southern fire was kindled afresh, and a demand was made. The members of the South gave the North to understand that they must have the Doorkeeper. They selected one of the most zealous of the Confederates, one who had earned somewhat of a distinction with Lee, and whose devotion to the lost cause could not be called in question. On the other hand, there was knocking at the door of the House, a brave soldier of two wars, an ex-United States Senator from two States, a man of a large heart and patriotic impulses—General James Shields. Misfortune has made him poor, and age prevents him from engaging in active pursuits for a livelihood. He was rocked in the cradle of Democracy, and never forsook the party or deserted its principles. A right-minded Democrat, one who places as much value on patriotism, or who can judge of the difference between Doorkeeper Field's treason, and General Shields' gallantry and loyalty, would have voted for the latter on two very substantial reasons; but with hardly an exception, the Democratic party in the House cast their votes for the Confederate, the vote standing 123 for Field, 101 for Shields, and 27 abstained.

The result of this political contest, proves conclusively that the Southern Democrats are in power in the House of Representatives. There was not courage enough in the Northern Democrats to break with their Southern brethren, and the latter carried the day. In this way they expect to carry through the House all their schemes. They have a strong foothold in Congress, they are gaining ground inch by inch, and if that day should come when the people clothe Congress with Democratic power, the 200 million dollars of claims, presented within six months, will be allowed. They will attempt to accomplish the work and it is extremely probable that the Democrats of the North will take sides with the South in the battle for plunder. As goes the South, so goes the Northern Democracy.

Congressmen should not be too eager to be interviewed by newspaper reporters. Many times when they see their own private opinion in print, they kick, and blame the correspondent. Representative Caswell, of this State, kindly and patiently submitted to an interview in Washington a few days ago, by a Chicago Tribune correspondent, which of course was printed in full. Mr. Caswell pumped easily, answered questions willingly and promptly, and was somewhat elated at the idea of getting his name in the papers. This interview was on the Texas Pacific railway, a scheme which Mr. Caswell supported by his vote. When the interview was published, by which time public sentiment began its reflection, and he found himself on the wrong side, he became ashamed of some portions of the interview. He then wrote a long letter to the Tribune, denying the correctness of the statements in the interview. This of course, being a question of veracity, brought out the Tribune's correspondent, Mr. Wright, who gives a very interesting account of the conversation which took place between the two men, and he makes his words and framed his sentences, knowing how carefully Mr. Caswell selected they were to be published in full in the Tribune. Mr. Caswell, who is an upright man and a faithful Representative, was unfortunate in that interview, as Congressmen usually are, unless they are on the right side of the question under consideration.

We have received the number of the Darlington Republican containing the parting words of Mr. Wigglesworth, who has been its editor and proprietor for the past eight years, and the brief salutation of General James Bintliff, who has purchased the paper. The Republican is the organ of the party in power in La Fayette county. It is an enterprising political and local newspaper, and has done much good service in redeeming that county from Democratic rule. That it may continue to be an exponent of aggressive Republican sentiment, vigorous in its tone and fearless in its utterances, is our sincerest wish. General Bintliff is abundantly capable of making the Republican a valuable and influential journal. He is a close student, has acquired broad culture, is a strong and correct writer, and by application, such as he is able to command, can make his paper felt in the politics of the State. We have known General Bintliff most intimately since 1874. For three years and three months both occupied the same writing table in the Gazette's sanctum. In that time we had an abundant opportunity to measure his capabilities, to learn what manner of a man he is, and to appreciate his worth both as an editor and a man. Our relations were remarkably pleasant. Not a single word during that time passed on from one to the other bearing any unkindness. Our labors together in the editorial harness will always be remembered with the deepest satisfaction.

THE JAMESVILLE GAZETTE.

VOLUME 22

JANESVILLE, WISCONSIN, TUESDAY, APRIL 9, 1878.

NUMBER 27

We believe the President is a Republican, and desires sincerely the permanent success of the party; and so believing, we deprecate the action of some would-be leaders of the party in seeking to break it down, simply because in a few things President Hayes may not have acceded to their wishes. We are pleased to see that some members of the party opposed vigorously the idea of making a break with the President.

And yet the Journal was very much pleased with Mr. Howe's "able speech," and gave it a warm endorsement. It also paid Howe a compliment by saying that it was always proved that Judge Howe was right. If that be the case, the Journal is not inconsistent. It can't very well take stock in Howe's speech, which virtually favors a break with the Republican party, and at the same time profess to be a Republican after the fashion of Foster, of Ohio. In other words, the Journal can't ride two horses at one time while each is going in opposite directions. Greeley tried that and the Journal knows the consequences. It can't cling to Howe and still have an abiding faith in the President. It can't sneeze every time Howe takes a pinch of snuff, and at the same time dance to the music of the Administration. It must be one thing or another. It can't blow hot and cold. It can't straddle the fence with a certainty that it will jump on the right side when political events require that it shall take a leap.

According to the reports from the Post-office Department at Washington, the Administration has adopted a system of mail service which will save to the Government several million dollars a year. An investigation was made and it was ascertained that in very many cases, the contract price paid for carrying the mails was enormous, in some instances being several times more than it was actually worth. The "Star" service was inaugurated, which divides the country into four sections, all the States and Territories West of the Mississippi being in one section. The bids received in that section under the new system will reduce the expense about four millions per annum below former years.

We have indirectly heard from Howe. It is said that he has written an article for Blackwood's Magazine in reply to one on the future of the Republican party in this country. A telegram says that Howe, in the article mentioned, "maintains that the party has in it all the constituent elements of political strength that it ever had, and that it can become the controlling party of the Nation if the management of the campaign is wise. Howe emphatically denies the allegation that he ever attacked President Lincoln, or any of his measures, and refers to his stand in all political conventions for Lincoln's support. The only time he ever spoke in the Senate upon any of Lincoln's measures was in 1862, upon a bill legalizing the call for troops, which he supported."

The latest dispatches from Europe say that from Vienna and Berlin, reports are of a most pacific character, and judging from them, says a cable to the Chicago Tribune, "it would seem as though there were strong hopes that a Congress would assemble after all, but there is a most ominous silence in St. Petersburg, and it is altogether probable that the present bill will be succeeded by most lively preparations for war of the part of both Russia and England. The English Government are said to expect Austria's cooperation, but this is doubtful. If England can be induced to go to war with Russia, Austria will profit by the opportunity to obtain large concessions from Russia, and let England fight it out alone."

Mr. Thomas Nichol, who came to this State last fall from Kansas, and who did such good service in behalf of Republican principles, has issued a pamphlet of 56 pages, in which a strong argument is presented for a redeemable paper currency. All who wish to gather some valuable information on the money question should carefully read this pamphlet. It can be had of the Honest Money League, Chicago, Ill. Those who desire to aid the cause of honest money can do so by circulating this pamphlet.

We publish to-day very full particulars of the terrible accident on the Chicago and Northwestern railway near Reedsburg, in this State. The disaster was caused by a burning bridge, which was not seen until the night express, which came thundering from behind a curve, ran upon the fiery structure. The fireman, Doty, and the engineer Denis, were killed. None of the passengers were injured.

The La Crosse Democrat says that half a mile of steel rails per day is being laid on the river division of the Chicago, Milwaukee and St. Paul road. The entire distance to Chicago is to be relaid, after which the schedule time is to be materially changed.

The Wisconsin editorial convention for 1878 will be held at Madison in June. Those having charge of the arrangements have marked out a pretty long excursion route, which will extend from Madison to Ashland, on Lake Superior.

"CIVIL SERVICE REFORM."—A CHANCE TO TRY IT ON.

It will be remembered by the readers of the Gazette, that under the above quoted caption, several articles appeared in its columns, a few weeks ago, over the well-known signature of "J. M. B." In those articles were some points worthy of careful consideration. I was, however, impressed with the conviction, on reading them, that they also reflected some views that were near akin to bad communistic doctrines. But I am not about to appear in the role of critic on the much-talked-of subject of Civil Service reform. My simple

purpose in this communication is, first, to call attention to the cause and the cure of our Civil Service distemper, as they are given by "J. M. B." and second, to suggest to the "Reformer" that he has just now a good opportunity to offer a practical illustration of the views which he so earnestly advocates.

Says "J. M. B." in one of the articles referred to: "The cause of our Civil Service distemper is this: We pay our office-holders so much better than we do our farmers, mechanics and laboring men generally, that they are striving to get away from labor and become office-holders. Now what is the proper remedy? Why, make office-holding no more lucrative than plough-holding, and the thing is done."

Well, all this is very plain, and it may all be true. I do not propose to dispute the point through the columns of the Gazette. But I have a remark or two to make concerning the price of plough-holding, and then a suggestion to the author of "Civil Service Reform."

I can hire a plough-holder, a competent and trustworthy one, with brain as well as muscle, for seven dollars and fifty cents per week the year round, including his board, which shall be no meagre or stinted fare. I have purposely put the figures above the amount usually paid, in anticipation of the objection that the price commonly paid is too low. My plough holder then will cost me, in round numbers, say four hundred dollars a year. And this would afford him a liberal compensation. He could lay up money on his salary.

"J. M. B." is now our city clerk elect. I do not know positively what the salary is, but I will assume it to be at least six hundred dollars per year. Now my suggestion is that if our Civil Service Reformer wishes to be consistent, and to make his practice conform with his profession, he should content himself with four hundred dollars; and to use a common phrase which I do not quite understand, "cover" the two hundred dollars into the city treasury. Or what would be just as well—perhaps even better—donate this sum for a good purpose say as a nucleus around which to cluster a few thousand dollars for the establishment of a free circulating library, or for some other commendable object. By so doing he will offer an admirable practical commentary on the oft quoted expression, "O! consistency, thou art a jewel!"

PETER.

"The salary is \$500 per annum."

Some fellow in Nevada offered \$100 for a fifty-cent piece bearing a certain date. A man in Boone, Iowa, responds that he can let him have some "rare fifty-cent" pieces, of the date desired at \$100, and would be glad to sell them. Of late, the quoted price of rare coins has been placed very high. The silver dollar of 1894 was recently quoted at \$500. In that year there were 19,570 pieces coined; while the dollar of 1895, of which 321 were made, does not bring near so great a price.

A TELEPHONE TEMPEST.

What an Excitable Frenchman has to say of the Invention—Proving that a Poor Italian Discovered it Years Ago.

There is a Frenchman in Buffalo who disputes the claims of Bell and Edison to the invention of the telephone. Monsieur Franconi is a modest man; what he knows he prides himself upon, and when he expresses an opinion it is an opinion as to an opinion. He says, in a quiet way, to his friends, that the novel telephone is old enough to be bald-headed, and when among his cronies he is disposed to dilate upon the credulity of Americans, and cite as an evidence their perfect faith in the inventive powers of the men who have turned the telephone loose upon us. A Buffalo News reporter met the old man and ventured to dispute the accuracy of his knowledge. He exploded in a torrent of French expletives, and seizing the scribbler by the throat he hurled him through a dark alley into a repellant looking tenement house, and in a fever of passion he dragged from an old cupboard a bundle of French papers. On the top of the pile was a dim looking sheet which proved to be the Petit Journal of Paris. The date was November 22, 1865, and in it there was a paragraph encircled with the dingy hue of stove blacking. "There," said Franconi, "there is the proof that Bell and Edison have stolen their thunder. Look at that!" Here is the paragraph that set the Frenchman's brains on fire:

DISCOVERY OF THE TRANSMISSION OF SOUND AND WORDS BY THE TELEGRAPH.

A new discovery, which will have immense results in applications that can be made to the arts and industries, has long been added to the number of wonders of this century, is the transmission of the sounds of the voice by telegraph.

The author of this discovery is Signor Manzetti, of Aosta, the inventor of a celebrated automaton. He transmits words with the ordinary telegraph wire, and with an apparatus more simple than that which serves to-day for dispatches.

From this time henceforth two merchants may communicate instantaneously their business affairs from London to Calcutta, informing each other of their speculations, agreements, etc.

Numerous experiments have been made that have completely succeeded, and confirmed the practical possibility of this discovery. It also transmits perfectly the sounds of music, etc.

He scarcely gave the reporter time to read this before he loaded him down with Italian papers of twelve years ago, full of laudatory notices of the invention of Manzetti. Franconi, who is of Italian extraction, claimed the glory of the discovery for Italy.

Senatorial Folly.

From the Boston Post.

Senator Burnside, the beautiful, is a conspicuous figure on Washington's fashionable drives. He has a stylish T. car, drawn by one superb horse, elegantly caparisoned, a liveried footman in top-boots, high hat with rosette, olive green livery, with silver buttons, is in place, while beside the Senator is always one of the fairest buds from the capital's rose garden of beautiful girls.

An exchange asks: "Can we drink with impunity?" Certainly you can, if impunity invites you.—*Gen. Sat. Night.*

A RAILWAY DISASTER.

Passenger Train Wrecked on a Burning Bridge—The Fireman Killed and Engineer Fatally Wounded.

REEDSBURG, Wis., April 8.—The western bound passenger train on the Chicago and Northwestern railroad met with a severe disaster and wreck at half past 5 this morning, five miles north of here, at bridge No. 219, across Baraboo river. The bridge is located behind a curve, and as the train was rounding the curve the bridge was discovered on fire. The air brakes were immediately applied, but it was impossible to stop the train in time to avert the disaster that followed. At the point where fire was burning the bridge was about ten feet from the ground. The engine and the express and baggage car plunged off killing the fireman, Doty, instantly, and fatally injuring the engineer, Marcellus Denis. The express and mail matter immediately took on fire and burned entirely up. The express messenger had just time to grab his money—\$300.00 and leap. The smoking car plunged off, and one end rested on the ground, the distance to the ground being so short. This car held the other three coaches back, and they remained on the track. There were but few passengers, and none of them were injured. The supposition is that the two o'clock freight train set fire to the bridge, and so weakened it that it could not support the train. Wrecking trains were at once dispatched to the scene of the disaster, and travel will be resumed within twelve hours.

THE EAST.

Beaconsfield's Speech—Derby's Retirement—An Expedition for Asia Minor.

LONDON, April 9 5 a. m.—The most important feature of last night's debate in the House of Lords were Lord Beaconsfield's tone relative to the strength England could put forth against Russia, and Lord Derby's statement as to his reasons for retiring from the Cabinet. Lord Beaconsfield spoke with the same jaunty air which has always characterized him when he has felt himself master of the situation. It was evident that the Premier was in unusually high spirits, and the tone of his speech left the desire in the minds of most of his hearers to learn what was kept back, for he clearly implied that he knew something he wouldn't tell. Lord Derby so far abandoned his previous reserve as to state distinctly that the calling out of the reserves was not his only reason for resigning his portfolio, but measures of far greater moment had been resolved upon. What these were he declined to say, but enough can be gathered to make it certain that England is only waiting Russia's reply to Lord Salisbury's note before dispatching an expeditionary force to some point in Asia Minor. This information tallies exactly with my dispatches for the past ten days, which were based upon statements from such an authority as to satisfy me of their correctness at the time of Lord Derby's resignation. It is only a question of time when Lord Beaconsfield shall decide that such an expedition shall be dispatched, and the orders to the fleet previously telegraphed you are simply held in abeyance until the diplomatic game has been ended satisfactorily.

GENERAL GRANT.

Enjoying His Trip Through Europe—Relief from Care—The Silver Bill.

WASHINGTON, April 8.—General Sherman has received a letter from ex-President Grant, in which the latter described the gratification experienced in his trip through Europe and his enjoyment, particularly of his voyage up the Nile. He does not allude to politics in his letter, but alludes to his relief from care and responsibility. He says that when the silver bill passed the House it created some excitement and adverse criticism in Europe, but he finds that when the provisions of the bill are finally adopted are understood it is regarded more favorably.

WELLS.

J. Madison Gives Secretary Sherman A Piece of His Mind.

New York, April 8.—The Herald has an acrimonious interview between J. Madison Wells and Sherman: "Did we not give you the moral sympathy support of the letter which General Garfield, Stanley Matthews and General White united with me in writing you?" asked Sherman. "Oh, hang your letter-writing; there were half a dozen better things you could have done for us, and as for your moral sympathy, if it was deep enough to reach to hell and back it would not have taken General Anderson and me out of jail," was the angry response. "But what else could we have done in the matter?" queried Sherman. "Oh, if the President had said but the

word to Nichols it would have saved us all the misery of staying in prison. A line from Hayes would have done the business. As for writing letters, you might have written 200 of them and they would not have been worth any more than so much waste paper."

The interview continued in this vein for quite a while, and was conducted at times in so loud a key that the voices penetrated to the adjoining chambers, the language of Wells being, as one listener described it, freely interspersed with "cuss words."

WISCONSIN MATTERS.

Annual Meeting of the Milwaukee Chamber of Commerce—The Middleton Whisky Case—The Supreme Court—Fire at Westfield—An Intoxicated Man Drowned at Elkhorh.

MILWAUKEE, Wis., April 8.—The annual meeting of the Chamber of Commerce was held to-day. The directors reported the cash receipts for the year \$17,000.75, and total expenses \$10,537.11, a net gain of \$6,463.64. The total cash surplus now is \$17,030.35, which with bonds on hand, at a cost of \$16,246.69 the appreciation on the bonds since their purchase, \$2,493.31, make a total surplus fund of \$35,760.35. The total membership of the board at the close of the year was 569. The new officers inaugurated are Charles Ray, President; Wm. P. McLaren and C. E. Britt, Vice Presidents; Wm. J. Langson, Secretary and Treasurer; Carlton Holland, Inspector, and John R. Fritcher, Weigher.

MADISON, Wis., April 8.—Considerable excitement exists here over the fact that the old Middleton whisky fraud case is to be reopened, and men implicated, heretofore not supposed to have any connection with whisky frauds, to receive a trial for complicity therein. The distillery at Middleton was the first distillery seized in the Northwest at the commencement of the whisky fraud raid, those implicated in it that were then known escaping with light sentences. A United States attorney has been here looking the matters up, and the case will surely be reopened in the United States District Court in June.

MADISON, Wis., April 8.—The State Supreme Court heard the following cases to-day: Griffin et al. appellants, vs. Town of Willow River respondents. Argued by W. E. Carter for respondent, and submitted for appellants on case and briefs. Lauer et al. respondents vs. Bandow, appellant. Submitted on case and briefs. Daniels vs. Bailey. Submitted on case and briefs. Carter, appellant vs. Hurley, respondent. Argued by M. A. Wray for appellants, and by E. E. Bray for respondent. Plattville vs. G. and S. Wisconsin Railway Company. Argument resumed and completed.

WESTFIELD, April 8.—A destructive fire broke out last night about 10 o'clock in the store occupied by Wm. Schultz, and destroyed the entire block of six buildings. Loss, about \$12,000 as follows: Schultz, \$5,500; Gilchrist, \$1,000; Cochran, \$300; Nelson, \$4,000; Feener, \$100. Total insurance, only \$4,000. The cause of the fire is unknown.

ELKHORN, Wis., April 8.—Anthony Trainer, of Burlington, Wis., aged 40 years, was found dead in the mill race at Burlington this morning. He has been missing about two weeks. When last seen he was intoxicated, and is supposed to have accidentally fallen into the river.

AN EPIDEMIC.

Among Claimants Before the Present Congress—A Modest Claim From a Maryland Widow.

WASHINGTON, April 8.—The fierceness with which the claim epidemic is raging in the present Congress is again illustrated by a report just made by the Committee on Claims of the Senate upon a bill introduced for the relief of Mrs. Margaret A. Spencer, of Maryland, the widow of an ex-member of Congress from that State, who died in 1858. Mrs. Spencer, the claimant is the daughter of Thomas Dunn, who, she says, was killed by the Indians at the massacre at Fort Mimms, on the Alabama River, in August, 1813, at which massacre the Indians, incited to war by the United States troops, destroyed \$20,000 worth of cattle, horses, provisions, and other property. She has been twice married, and it never occurred to her to claim damages for the destruction of her father's property until last February, sixty five years after the alleged destruction took place. The committee reported against the payment of the claim, as the only evidence to sustain it was like that by which the tomb of Adam was identified by Mark Twain.

EX-GOV. MOSES.

The Ex-Governor in Custody—After a Requisition—A Writ of Habeas Corpus.

NEW YORK, April 8.—Ex-Gov. Moses, of South Carolina, remains at police headquarters, while Constable Connor, who has been shadowing him for three weeks, has gone to Albany to get a requisition. Moses' counsel has taken out a writ of habeas corpus, and to-morrow morning cause must be shown why Moses should not be discharged. The claim is that the alleged forgery is upon an unscrupulous and void promissory note, and that no warrant from the Governor of this State was in the hands of the officers when the arrest was made. Moses received a large number of friends to-day in Superintendent Walling's office.

APPOINTMENT.

WASHINGTON, April 8.—The President has nominated Justin E. Colburn, of Vermont, United States Consul-General at the City of Mexico. Mr. Colburn has been chief Washington correspondent of the New York Times for a number of years past.

POLITICAL.

The Pennsylvania Republicans and Their Attitude Toward the President.

WASHINGTON, April 8.—The Pennsylvania Republican Convention meets on the 15th of May. Last week ex-State Treasurer Mackay, one of the chiefs of the Republican party organization of Philadelphia, came on to Washington to confer with some of his friends. He said the Republicans of Pennsylvania wanted nothing to do with Mr. Hayes or his administration; that Mr. Hayes had been a thorn in the side of the party ever since he was put

in the White House. A. K. McClure, who was here at the same time, told Secretary Schurz that at the approaching Republican convention in Pennsylvania the most that the administration could hope for was to be ignored; that certainly not one friendly word would be put in the platform. Subsequently Colonel McClure made this same statement to the President. He says the President evinced no particular wonder over the subject, but expressed himself as satisfied with his own position and the condition of things.

A Tongue Amputated.

Cleveland Plain Dealer Letter.

Robert F. Hurlbut, private secretary of Governor Bishop, of Ohio, has just had his tongue amputated near the root. The chin was sawed in twain and the jaws spread apart in order to take out the diseased tongue. The work was performed in a comparatively short space of time, and the patient was comfortable and conscious in less than an hour. Next day Mr. Hurlbut walked across the room, and wrote his wants upon paper. He is not permitted to attempt to speak, and, of course could not do so if he desired. The physicians think he will be able to articulate audibly in the course of time. Thus far the difficulty has been to give nourishment, which has been done by injection. Glass tubes have been secured, and hereafter nourishment will be given by that means until the soreness in the mouth is somewhat subdued.

One of the highest compliments Edwin Booth ever received was paid to him by an old negro woman, a family servant, who went to see a performance of "Richard III." during Booth's visit to Savannah. Giving her impressions of the play to her mistress next day, she expressed the greatest concern for the health of the actor. "Poor old man," said she, "he can't last long; dat cough'll carry him to his grave, shush."

AMUSEMENTS.

Myers Opera House.

TUESDAY EVENING, APRIL 9th.

The World's Famed Artist.

CAMILLA URSO

Assisted by the following Eminent Talent.
MISS IVY WANDERFORD, Soprano,
MR. W. C. TOWER, Tenor,
MR. J. P. RUDOLPHSEN, Baritone,

OVER-LAND MAILS CLOSE.
Centre and Leyden, Tuesdays, Thursdays and Saturdays by 12:30 m.

East Troy, via Johnson, Mondays, Wednesdays and Fridays by 6:00 p. m.

Beloit stage, 11:00 a. m.

Daily from 8:30 a. m. to 8:30 p. m. On Sundays from 12:00 to 1:00 p. m. Money Order and Registered Letter Department open from 8:30 a. m. to 12:00 m. and from 1:00 p. m. to 8:30 p. m.

The distribution of the mails. Stamps, stamped envelopes, postal cards and Wrappers for sale at front window from 8 a. m. to 5 p. m. Orders for stamped envelopes with return card printed thereon, should be left at the Money Order Department.

On Saturday night ONLY, a through pouch from Chicago is received on the Fond du Lac train; and on Monday morning only, a through pouch is made up and forwarded to Chicago on the 7 o'clock train.

By reading this table carefully, the public can save themselves thoroughly upon the arrival and departure of all the mails, and thus avoid much inconvenience to themselves.

H. A. PATTERSON, P. M.

The Wheat Crop of Michigan.

The Detroit Post of March 29, prints reports from all parts of Michigan, in regard to the present condition and prospects of the wheat crop and the estimates of the amount of wheat in farmer's hands which can be relied on to supply the wants of the market until another harvest, and says: A more satisfactory showing for the interest of both producers and the trade generally could not be asked or expected. The prospects for Michigan wheat were probably never equalled in any former year at this date. The winter has been eminently a favorable one for the crop; it could not have been more so had a mantle of snow fallen on Dec. 1 and remained until now. The season has been mild and propitious. The fall growth was a good one and the winter has hardly interrupted it; in fact, the plant, as a rule, to day has a better root and stronger stock than on December 1. The cold weather of the past week has been rather favorable than otherwise for the crop, in that it tends to retard undue forwardness, for a quick and growing spring might prove the maturing of the straw at the expense of the berry, and give us after all a poor or an ordinary harvest. To-day, however, the promise of the largest wheat harvest ever gathered in Michigan could not be improved. As to the quantity of wheat still in farmer's hands, there can be no doubt but that it exceeds that of any former year at this date. Thirty-six correspondents, after a careful inquiry among the best informed, estimate the amount of the crop of 1877-78 yet unsold, at from 25 to 40 per cent, and in 11 other localities it is placed at 50 per cent. or over. Some of these views may be exaggerated, yet if only a quarter of the immense yield of last season is still available for the wants of the market, it is a much larger amount than was ever held at this season of the year. We congratulate the people of Michigan on the present agricultural outlook.

America's Place at the Paris Exposition.

From the New York Post.

The Exposition promises to be so exceedingly beautiful and so thoroughly a success that one cannot help bitterly regretting the small part which the United States is to play in it. We are to occupy but 6,000 meters of space, while England has 22,000 and Austria-Hungary 9,000. Some one has been guilty of rare oversight, and that some one is the people, never allowing the Government to take charge of things which it alone can manage. We lose much more than can be adequately described by allowing ourselves to be distanced in this international festival, but it is too late to change now. No doubt our contributions will be extremely interesting, but there was a certain place for the United States to fill which she has allowed England to take. Much curiosity was excited a day or two since by the arrival of some curious looking cases containing the crown jewels of England; among others—so it is said, although it seems difficult to believe—the famous Kohinoor, which has several times been in imminent danger of passing into the hands of thieves. A special guard of English and French detachments will be on both sides of the channel smart enough to spirit away even the jewel cases if vigilance were for a moment relaxed.

A State on Fire.

Sunday, March 24, 1878, will long be remembered in South Carolina for the widespread conflagration which enveloped the forests and many of the farms in all portions of the State. There had been a long drought, the withered leaves of winter still clinging to many of the trees; woods-fences and bridges were like so much tinder, ready to be kindled by a spark; and the winds blew steadily and fiercely; and the bush fires incident to clearing new grounds, and the reprehensible custom of setting fire to the woods and old fields in order to clear the way for fresh grass for cattle, turned the sparks; and, in consequence from every county of the State came no-

counts of forests swept away by the flames, valuable fencing destroyed, and residences and barns, with fodder, cotton and other valuable farm products, falling a prey to the devouring element. This is a disaster to many poor farmers. In addition to the immediate distress caused by the loss of food and shelter, the consequential damage from the interruption of work at this particular season is serious. Fences and houses must be rebuilt, planting greatly retarded, and debt incurred to replace provisions. The Legislature, which has been adjourned, did a great deal that was intended for the benefit of the farmers. They passed a no-fence law, repealed one law and passed another, and also enacted a statute to protect the property of planters in the hands of their factors. The next Legislature will have an opportunity of revising their predecessors in the good work by framing a law to prevent forest fires—*Charleston (S.C.) News and Courier.*

Why the Churches are Poorly Attended in Indianapolis.

Churches are numerous, and the pulpits are supplied with divines whose theological lore is in keeping with the times. Yet these places of worship are very poorly attended, and while the ministers are wasting their week's work on a few meek and lowly followers of the Cross, whole armies of young men and maidens are willing away their existence playing draw poker. Investigation would develop the fact that for each man who regularly sits under the drooping of the sanctuary, ten sit at a poker table.

There used to be a man—gone west now, poor fellow—in the United States railroad mail service, ran east of Burlington, whose eyes were so crooked he could careen with them. He could hold a postal card out at arm's length before him, read the address with one eye and look around the end and read the message on the other side with the other, and watch a man trying to climb in at the car door behind him, all at the same time. He left the service because he always had to go to the door on the other side of the car to see the station.

MISCELLANEOUS.

FRUIT TREES.

For the next sixty days we will sell

First Class Grown Stock of Trees

from our own Nursery, at one-half our usual retail rates, for ready pay, good notes, or farmer produce taken in exchange. All stock in perfect condition, of best varieties, and true to name. Farmers fill up your orchards. Plant!

EVERGREENS AND SHADE TREES!

We have 10,000 that must be sold. Come with big wagons and strong teams.

COME EARLY.

We have also 5,000 grape vines, in variety; 5,000 mammoth cluster raspberries; 10,000 strawberry plants, in variety; 5,000 strong 2 year asparagus plants, and all other stock of best kind for this State, which we offer at low rates.

Send for Catalogue and prices.

J. C. PLUMMER, SON, Janesville, Wis.

THE STOUTON WAGON

IS AHEAD OF ALL OTHERS.

It has a Patent, Adjustable Reach, which can be changed in a moment's time from ordinary length long enough to carry lumber 24 feet in length; no additional belt, perfectly solid, and no rattles; Patent Springs, which can be used either on the box or gear; Patent Tongue Spring, which relieves the entire weight of pole from the horses' necks; is built from the best of materials; thoroughly seasoned; every one fully warranted; the best proportioned; runs the easiest; superior finished, both in wood-work, ironing, and painting; and will satisfy every one who buys it. Ask men who are using them—not those who are making or selling other wagons. Mandt's Patent Platform Wagon has no equal. Has eight springs; no gears; draws on the only correct principle—from the under side of the axle; has the best patent wheels; genuine steel axles; a solid bent box; is elegantly finished; will carry more; run easier; ride easier, and look better than any other two-wheeled, spring vehicle. Any one wanting a wagon, buggy, or light rig, of any description, should address T. G. MANDT, Stouton, Wis.

For sale by CARPENTER & GORDY, Janesville, Wis.

FOR SALE.

CHOICE FARMING LANDS!

IN MINNESOTA AND DAKOTA,

BY THE

Winona & St. Peter Railroad Co.

The Winona & St. Peter Railroad Company is now offering for sale, at VERY LOW PRICES, its land grants along the line of its railroad in Southern Minnesota and Eastern Dakota, and will receive in payment therefor, at par, any of the Mortgage Bonds of said company.

These lands lie in the great wheat belt of the northwest, in a climate unsurpassed for healthfulness, and in a country which is being rapidly settled by a thriving and industrious people, composed of a large extent of farmers, from the eastern and other portions of the northwestern States.

H. M. BURCHARD, Land Agent for sale of lands of said company, at MARSHALL, LYON COUNTY, MINN.

Geo. P. GOODWIN, Land Commissioner

General Office of Chicago & Northwestern Railway Company, Chicago, Ill.

To all persons requesting information, by mail or otherwise, Circulars and Maps will be sent free of cost by said Land Commissioner or said Land Agent.

Notice to Publishers.

STATE OF WISCONSIN.

OFFICE OF SECRETARY OF STATE.

SEALED PROPOSALS WILL BE RECEIVED BY the Commissioners of Public Printing, at the Office of the Secretary of State, in the Capitol at Madison, up to 12 o'clock on Monday, May 20, 1878, for printing, publishing and selling the reports of the decisions and opinions of the Supreme Court of the State of Wisconsin, for the term of eight (8) years, as provided in chapter 124, laws of 1878.

Each bidder must deposit with the State Treasurer, before making his proposals, the sum of one thousand dollars (\$1,000), to be forfeited in case he shall not make a contract conforming to the requirements of said chapter 124, laws of 1878.

The successful bidder shall execute a contract according to the terms of his proposals, and according to the terms of said chapter 124, laws of 1878, within thirty (30) days after notice of the acceptance of his proposals, and must also file with the State Treasurer a bond in the penal sum of ten thousand dollars (\$10,000) conditioned as in said act provided.

Blank forms of bids and bonds will be furnished on application to the Secretary of State.

The right to reject any and all bids is hereby reserved.

Dated at the Capitol, in the city of Madison, this 24 day of April, 1878.

BANS B. WARNER, Secretary of State.

RICHARD L. LINTNER, State Treasurer.

ALEX. WILSON, Commissioner on Public Printing.

New York Mercury

FORTIETH YEAR OF PUBLICATION.

For forty years the New York Mercury has been before the public—a welcome guest throughout the length and breadth of the land. The Pioneer of Weekly Journalism, it has kept pace with the march of improvement and progress. As the past so in the future, it proposes to retain its rank as the LEADING LITERARY, FAMILY AND MISCELLANEOUS JOURNAL OF THE AGE.

Originality is a Prominent Feature, especially in its Literary Columns. Its Serial Stories are by the Best Authors, its extensive list of contributors embracing the names of the most celebrated AMERICAN AND EUROPEAN WRITERS OF FICITION.

The Mercury has achieved a National Reputation for its Sketches of Romance and Real Life, a field in which it has no rival. Another specialty is its

TABLE-TALK DEPARTMENT.

In which appears regularly the "best thoughts of the best minds," overflowing with diverting anecdotes, vivacious poetry, and quaint conversations.

THE HOME CIRCLE.

While the Ladies are also always sure to find in the Mercury articles of living interest to the sex. Children are catered to in a manner designed to instruct as well as amuse.

A RECORD OF PUBLIC AMUSEMENTS.

The Mercury gives every item of public or personal importance in the Theatrical, Musical, Artistic and Variety World. Its correspondents, who cover both Hemispheres—far eastern and in distant—contribute regularly a full, comprehensive, and reliable budget of information superior in accuracy and scope to that of any journal published.

SPECIAL FEATURES.

The Mercury is the only recognized favorite of the Volunteer and Paid Fire Departments of the Union and Canada, affording, as it does promptly and exhaustively all attainable facts and gossip. During the Season of Out-door Sports many columns are devoted to the favorite game of Baseball. Its reports of games, and its tabular records of plays and players, are the best published. THE NEWS AND GENERAL DEPARTMENT.

Always contains special articles on timely and interesting topics; editorials, condensed news-items, humorous paragraphs, etc., etc.

Altogether, in point of variety, quantity and quality, The New York Mercury is unsurpassed by any journal in the World.

TERMS OF SUBSCRIPTION.

The New York Mercury, with its fifty-six columns of sterling, original matter, will continue to be issued at Eight Cents a copy, and sold by all newsmen and periodical dealers in America. To mail-subscribers our terms for 1878 will be (cash in advance):—Single copies (postage paid), Three Dollars per Annum.

Write plainly the name of post-office, county, and State. Specimen copies sent free to all applicants. Address WILLIAM CAULDWELL, Proprietor, 6, The New York Mercury, No. 125 Fulton street, New York City.

A NATIONAL STANDARD.

Webster's Unabridged.

3000 Engravings. 1840 Pages Quarto.

10,000 Words and Meanings not in other Dictionaries.

FOUR PAGES, COLORED PLATES

A WHOLE LIBRARY IN ITSELF.

INVALUABLE IN ANY FAMILY,

AND IN ANY SCHOOL.

Published by G. & C. MERIAM, Springfield, Mass.

Warmly Indorsed by

Bancroft, Prescott, George G. Marsh, F. V. Greene Hallack, John G. Whittier, N. P. Willis, John G. Saxo, Eliza Barratt, Daniel Webster, Rufus Choate, B. Colveridge, Horace Mann, Smart.

More than Fifty College Presidents, And the best American and European Scholars. Contains one-fifth more matter than any other, the smaller giving nothing more on a page. Contains 3,000 illustrations, nearly three times as many as any other Dictionary.

For 1878, these alone illustrate the meaning of more than 100 words and terms far better than they can be defined in words.

More than 30,000 copies have been placed in the public schools of the United States.

Indorsed by State Superintendents of Schools in 24 States, and more than 50 College Presidents.

Has about 10,000 words and meanings not in other Dictionaries.

Embodies about 100 years of literary labor, and is several years later than any other large Dictionary.

"August 4, 1877. The Dictionary used in the Government Printing Office is Webster's Unabridged."

Is it not rightly claimed that WEBSTER is THE NATIONAL STANDARD?

CATARH

A PHYSICIAN'S TESTIMONY.

30 Years a Physician. 12 Years a Sufferer. Tried Remedies. Permanently cured by

SANFORD'S RADICAL CURE.

Messrs. WERTS & POTTER, - Sir: I have suffered from Catarrh for thirty years, and have been a sufferer myself for twelve years with Catarrh of the prostate gland, and I have tried every remedy known to man, but have not been cured until I used your Catarrh Cure. I am now a healthy man, and I can say that your Catarrh Cure is certainly a happy combination for the cure of this most unpleasant and dangerous of diseases.

Yours, respectfully,
J. W. CLARK, M. D.
Of Dr. D. W. Gray & Son, Physicians and Druggists, Milwaukee, Wis.

The value of this remedy must not be overlooked in the cure of those

SYMPATHETIC DISEASES,

Affections of the Eye, Ear, Throat, Lungs and Bronchial Tubes, and all the mucous membrane of the nose, throat, lungs, and bronchial tubes, are the cause of all these troubles, and until the system has been brought under the influence of the RADICAL CURE, perfect freedom from these troubles cannot be reasonably expected.

It is but three years since SANFORD'S RADICAL CURE was placed before the public, but in that short time it has found its way from Maine to California, and is everywhere acknowledged by the medical profession as the most successful preparation for the thorough treatment of Catarrh, ever compounded. The fact will be demonstrated more and more when it is coupled with the statement that within five years over 250 different remedies for Catarrh have been placed on sale, and yet with one or two exceptions, their names cannot be recalled by the best informed druggist. Advertising may succeed in forcing a few names into the minds of the public, but it is a pity that the medical profession, it is a pity that the public, should be misled by the name of a remedy, when it is a pity that the public should be misled by the name of a remedy.

Each package of SANFORD'S RADICAL CURE contains Dr. Sanford's Improved Internal Tube, with full directions for its use in all cases. Price \$1.00. Sold by all wholesale and retail druggists and dealers throughout the United States and Canada. WERTS & POTTER, General Agents and Wholesale Druggists, Boston, Mass.

PIANO-FORTE REPAIRING!

MR. G. W. HERSEE

IS NOW PREPARED TO DO ALL KINDS OF Piano-Forte Repairing, such as Re-stringing, Re-putting, and Re-tuning, and all the general repairs of the instrument. This class of work has heretofore been done only in eastern factories, and has been done very poorly. Orders for repairing or tuning may be left at the Music Store of Messrs. E. B. & W. Warren, Janesville, July 15, 1877. 1735dewly

THE GAZETTE.

TUESDAY, APRIL 9, 1878.

MILTON.

At the residence of the bride's father, Mr. William McEwan, on the afternoon of the 31st inst., Mr. Henry C. Curtis, Principal of the Milton Junction public school, and Miss Addie M. McEwan, were united in the holy bonds of matrimony by State Superintendent Whitford. The wedding was celebrated in a quiet manner, only the families of the bride and groom being present. In behalf of the many friends of the twain made one flesh, we tender the hearty congratulations and best wishes appropriate to the occasion. May their future be a happy and prosperous one. The bride and groom took the evening train immediately after the ceremony, for Burnett Junction, where the latter has relatives. Upon their return they will become citizens of this village, having rented the residence of Mr. S. S. Morton, lately occupied by Mr. O. Fuller.

—The Madison Democrat has poor judgment. Its late attack on Prof. Searing's annual report is entirely uncalled for.

—Remember the entertainment at College Chapel next Wednesday evening. Mrs. Jarley's wax works are a novelty here and no one can afford to miss seeing them, when they can do so by investing ten cents.

—Justice Clarke has eight untied suits on his hands at the present writing. This indicates that creditors are crowding somebody.

At the annual meeting of the Milton Cemetery Association held on the evening of the 1st inst., Messrs D. C. Burdick and Wm. McEwan were elected as Trustees, vice Messrs. Perry Sweet and S. S. Osborn whose terms expired. The debts of the Association are not large and the grounds are being improved very much every year. Mr. Howe, who has made the most of the improvements under direction of his owners, has a number of contracts for this season, and lot owners who are desirous of having improvements made should see Mr. Howe at once.

—The dyspeptic may be seen any pleasant morning meandering around with a tin pan and case knife, and kneeling down now and then. He is after dandelion greens.

—State Superintendent Whitford was in town last Tuesday to vote the straight Republican ticket.

At the town meeting \$500 was appropriated to grade the highway between this place and Milton Junction. It is one of the wisest appropriations that the town of Milton has ever made in the opinion of some, while others think it very unwise.

—W. H. Barden has concluded to embark in the lumber business here, which will supply a want long felt in this village. He has not put in a full stock yet, but will as soon as there is a demand for it.

—Town election was very quiet and a light vote was polled. The attempt of a few dissatisfied individuals to defeat two candidates on the Republican ticket, proved abortive, the whole ticket being elected by handsome majorities. The pathmasters in this village are O. A. Friddell on the East side and Perry Sweet on the West.

—The publishers of the College Journal hope to secure sufficient advertising to enable them to enlarge the May number of the Journal. They have already secured a position, and advertisers who do not find their ads in the Journal in the April number will understand that the same are to appear in the May issue, provided the Journal is enlarged.

—The attempt of the sore-heads to build down the Democrats into selling out their ticket, was a failure. The Democrats do not intend to burn their fingers in pulling Republican chateaus out of the fire.

—Subscribe for the Weekly Gazette, and get the best weekly in the State.

—Some repairs are needed on the sidewalks very much, and we hope the pathmasters will give the matter their earnest attention.

—Two eggs for a cent, makes the producers long for an European war.

—Our merchants have put in their spring stocks of goods, and can offer customers good reasonable goods at low prices; therefore people do not need to go out of town to make purchases.

—Potato growers who refused to sell their tubers at forty cents, last fall, are rather disconsolate now.

—Milton farmers will devote quite an acreage to the culture of sorghum, this season. The syrup is valuable for cooking purposes, and reduces a man's sugar bill materially.

—Quite a number of our citizens had the privilege of appearing in Justice Phelps' court as witnesses, last Wednesday.

—The first juvenile equine of the season trotted by last week.

—Vincent Bro's sold Williams & Borden a pair of very fine steers last Thursday. They were three years old and the pair weighed 3,040 pounds.

—Footville parties had business in Justice Clark's court last Thursday. The case was called and an adjournment taken. E. B. Saunders, of Janesville, appeared for the plaintiff.

—Two car loads of live hogs were shipped from this station last week, Waterman & Fairbank, Williams & Borden being the shippers. The price paid was \$3.00 to \$3.10 and farmers are disgusted with the hog trade.

—Farmers and villagers are planting large numbers of shade and ornamental trees this spring, the low prices at which trees are being sold giving all an opportunity to embellish their door yards at a very little expense.

—I. C. Heritage made us a pleasant call last Friday. He is now living at Waterville.

—The lease for the land upon which the cheese factory or creamery is to be built, was executed by Mr. Alexander last Friday, and the Dairyman's Association now has a first class location.

—Mr. H. A. Van Campen, one of the leading merchants of Cannon Falls, Minn., arrived in town last Friday on a visit to his relatives.

—The April number of the College Journal will appear next week. Those who wish to subscribe should address W. W. Clarke, Milton, Wis. Terms one dollar per year. Every old student and friend of the college should subscribe for the Journal.

—Mr. Dutton and wife, of Minnesota, former residents of this village, visited friends in this place Sunday and Monday. They are enroute for Massachusetts, where they intend to reside in the future.

—The cornet band met Saturday night and intend to effect a reorganization next week. It is to be hoped that the effort will be successful as we need their services.

—A clerk of the court, Baldwin, was in town Sunday and favored our sanctum with a call.

—The oldest inhabitant does not remember a season when the fall grain and grass were as forward as they are at the present time. Should the weather continue favorable, farmers will be able to put their cattle on grass the present month.

—Some of our horsemen saw ex-Sheriff Penner's 1,000 pound two-year-old colt last Sunday, and they pronounce him the finest big horse that stands on four legs.

—A car load of milch cows from the west were unloaded at this station Sunday morning and taken across the country to Capron, Illinois.

Petroleum Abroad.

From J. P. Newman's Lecture.

The valley of the Euphrates is destined to become one of the greatest commercial and important political centers in the world. I have myself seen whole caravans traveling through this region with nothing but American petroleum. American petroleum now lights up the dark places of Asia.

MISCELLANEOUS.

VEGETINE

FOR
Chills, Shakes, Fever and Ague.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—
Dear Sir:—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with Hip-joint disease. My son suffered a great deal of pain, all of the time; the pain was so great he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the Louisville Courier-Journal, that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to Chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and feels the last of that CHILL. Vegetine leaves no bad effect on the system like most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world. Respectfully,
Mrs. J. W. LLOYD.

VEGETINE—When the blood becomes thick and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the blood becomes thick and stagnant, and the system is affected with Chills, Shakes, Fever and Ague. Vegetine is a great Blood Purifier and Blood Food. It cleanses the blood, regulates the bowels, and imparts a tone of vigor to the whole body.

BEAUMONT, MASS., 1878.

We, the undersigned, having used Vegetine, take pleasure in recommending it to all those troubled with Humors of any kind, Dyspepsia, Nervousness or General Debility. It being the Great Blood Purifier, sold by R. L. Crowell & Sons, who sell more of it than all other patent medicines put together.
Mrs. L. F. FICKINS,
JOSEPHUS SLATE.

Vegetine is a great health restorer—composed exclusively of bark, roots and herbs. It is very pleasant to take; every child likes it.

VEGETINE
FOR
Nervous Headache and Rheumatism.
